PROJECTS

MERN Stack E-Commerce Application

MongoDB, Express.js, React.js, Node.js | github.com/Sitaram6888/Skart

- Developed a full-stack e-commerce application with product browsing, product details and shopping-cart workflows.
- Built REST API routes for seamless CRUD operations and secure user authentication.
- Managed global state using Context API and implemented dynamic navigation with React Router.

Product Listing Application

React.js, JavaScript, DummyJSON API

- Built a responsive interface that fetches and displays products from the DummyJSON API using reusable React components.
- Added real-time search and filtering, dynamic routing, and handled API loading and error states gracefully.

Shopping Cart Application

React.js, Context API, JavaScript

- Implemented cart management with quantity handling and automatic total price calculation using React Context API.
- Applied array methods and derived state to keep pricing accurate across every cart action.
